## EXPERIENCE THE DIFFERENCE OF NEW CHEMISTRY

Introducing ProMeris® for dogs. The next generation of flea and tick control.

### ProMeris for dogs:

- New active ingredient—metaflumizone—fleas have never been exposed to anything like it and are highly susceptible
- New mode of action kills fleas by targeting voltage-dependent sodium channels along presynaptic and postsynaptic nerves resulting in paralysis and death
- Convenient topical application
- Features first topical formulation of amitraz for well-recognized and proven tick control on dogs

### Dosing Convenience:

- Five sizes for dogs and two sizes for cats with three- or six-dose packs for monthly application

**ProMeris**®  
IT'S TIME FOR SOMETHING NEW.

Discover the difference new chemistry offers you and your patients.

<b>Zena ABC 196194</b>	Speck
Socks	Nick
	Lisa

BG Juice has a very good start. Rob and his offspring are finishing in the top 3% of Nationals in England. He's from one of the oldest, long time breeders and his mother is all the dog I need. However, I do feel I'm making another mistake in letting this one go.

**Unregistered Border Collie**

This is a great dog for a new stock dog owner. He works cattle, rides well in a pickup, on a 4 wheeler and in a tractor. He is an easy to handle, companion dog that is ready to work with you.

Birthdate:03/14/2007 ~ Spade or Neutered:No

McNab

McNab x Australian Cattle Dog

Chalk came to us as a rescue dog. I really liked her personality and the way she worked stock. She is smart and bites heads and heels. Stop by and meet her. I think you'll like her as much as I do and she would look good in the back of your truck!

Smoke was trained by Rudy Starke and is a littermate to his dog, Cash, that he sold two years ago. Smoke won the first cattle trial I entered him in at Torrington, WY in February 2006 and also won the Nursery Class at the Yellow Rose Arena Cattle Dog Trial at Platte, SD in November 2006. Smoke gets better every time I use him and will make a great ranch or trial dog.

Blacky is white with black patches. He has been on a few cow/calf gatherings, and I have also used him in the feedlot. He really likes to bite the head and will heel if he has to. I have used him mostly on yearlings. He is quiet when he work sand bites only if he has to.
