Dally is a great, all-around ranch horse. She's been used for everything from tagging and branding calves to roping bulls. She is the horse we grab when we want to get the job done. We've also shown her in some ranch horse competitions and she's done well. She's a very dependable, solid mare with a lot of cow sense. We've brought a good one to town. So, don't miss her!

MT is 5-year-old, 15 hands high and 1200 lbs. Grullo is a gelding that's quiet and level headed as they come. This horse was raised in the hills and has done all phases of ranch work. This past summer he competed in team pennings, and ranch sortings, and took me to the pay window. I can't say enough about MT's super disposition, he's been an absolute pleasure to ride. A novice or experienced rider will get along with him just fine. This easy going gelding will make someone a great all-around-horse. Take a look. You'll like him.
